EDUCATION

Trinity College of Engineering and Research

2022 – 2026

B.E. in Computer Engineering

Pune, Maharashtra

Mansukhbhai Kothari National School (CBSE)

2020 – 2022

Grade XII : 83 percent, Grade X : 90 percent

Pune, Maharashtra

INTERNSHIP EXPERIENCE

FitFare Private Ltd

Sept. 2025 – Present

Full Stack Developer

- Built and optimized feature-rich dashboards and user workflows using React, TypeScript, and JavaScript, focusing on performance, accessibility, and scalable component architecture.
- Assisted in developing and consuming REST APIs, managing MySQL databases, and integrating Firebase authentication and real-time services.

Bluestock

Aug 2025 – Jan 2026

Software Developer Intern

- Led development of a financial analytics dashboard to reduce data latency by 50 percent via live WebSocket integration
- Collaborated with backend services and APIs to implement secure, scalable data flows, improving dashboard reliability and real-time update accuracy.

Infosys

Oct 2024 – Mar 2025

Java Development Intern

- Supported backend development using Java and Spring Boot, contributing to API integration and improving overall development turnaround through low-code support with Bubble.io.
- Assisted in H2 database management and backend workflow optimization, collaborating with the team to streamline data handling and reduce implementation effort.

PROJECTS

Code Genie | ReactJS, Tailwind CSS, Flask , Monaco Compiler (custom), AI Models, Voice Integration

- Code Explanation + Generation , AI-assisted coding platform with error detection, chatbot support, and voice-enabled guidance.

Doc AI Healthcare Portal | Python, MongoDB, React

- Built AI/ML-based chronic disease prediction with QR records.

RentWheelz Car Rental Website | Java, SpringBoot, H2 DB

- Developed JWT-secured platform with realtime booking and Payment Integration.

Compliance Tracker - Web Application | C, ASP.NET MVC, SQL Server

- Developed a role-based compliance management portal with CRUD operations, authentication, and analytics track and manage organizational legal tasks efficiently.

SKILLS

Languages: C/C++, Java, Python, JavaScript, TypeScript
